

One Month Free With Ecologi!

We are delighted to celebrate the launch of the BECTU Sustainability website by announcing our partnership with Ecologi!

Ecologi are an organisation who work very closely with Gold Standard™, The Eden Projects and many others. Their aim is to help society become climate positive, by offering people a chance to offset their personal emissions.

We have lots of exciting things planned with Ecologi, but in the mean time you can start offsetting your life now, plus they're offering BECTU members their first month free!
